

SATURDAY OCTOBER 22. 1743.

Berlin, October 19.

HE King having strenuously insisted on the Marquis de Botta's being recalled, on account of the Charge brought against him by the Czarina, that Minister set out from hence on the 16th, on his Return to Vienna. He expressed a great Concern that he had not the Honour to take Leave of his Majesty, and would, in pursuance of Instructions from his Court, have justified himself, in respect to the Use he is said to have made of his Majesty's Name, in the Management of his Intrigues at Petersburg; but he was given to understand, that an absolute Defence of his Innocence, would free him at once from that and every other Imputation. According to Private Letters from Vienna, the Protestations of the Marquis de Botta, have had a great Influence there, inasmuch that some People did not stick to say, that the Enemies of the Court of Vienna had contrived to fix this Imputation upon that Minister, in order to prejudice her Majesty's Interest at the Court of Petersburg. This puts us in mind of a Report that was spread a little before the breaking out of this Conspiracy, as if another Foreign Minister had been forming some extraordinary Intrigues; which Report, however, fell over upon the breaking out of the other Affair. Upon the whole, the generality of People here consider this as a very mysterious Business, and seem determined to decide nothing on either Side, till they receive further Lights, which are daily expected.

Frankfort, October 16. It appears here very clearly, that two Factions are form'd in the Imperial Court, as well as in the Dyet; one in Favour of the Queen of Hungary, and the other in Support of the French, and both seem, at present, pretty equally poised. The favourite scheme of the Imperial Court is, to get a Peace negotiated under the Mediation of the King of Prussia; but the great Difficulty will be, the finding out an Equivalent for Silesia; without which, it is evident, that no Peace can be made. The French Faction have been lately declared in one of the Schemes upon which they reckon'd most, and that was, the Demand made by Count Seckendorff, of the Effects and Archives of the House of Bavaria, upon the Surrender of Ingoldstadt, which, it was not doubted, the Court of Vienna would refuse. Her Hungarian Majesty not only deceived them in this, but a short Rescript which she has published upon that occasion, undeceived a great Part of the Dyet; who now see plainly, that this Princess has no Intention to keep the Breach open between the Houses of Austria and Hungary, but is rather inclinable to do every Thing in her power to bring about an immediate Reconciliation. Some Folks scruple not to say, that this Rescript has done her as much Service as a complete Victory; and that it will be absolutely impossible to prevail upon the Emperor, to take any Step to her Prejudice. Yet this is the scheme which the French Party have, at present, most at Heart; and with a View to which they prevailed on the Emperor, to write and publish his late Circular Letter. To counterwork this Contrivance, the Austrian Party have set on Foot another Project, which is, for journeying the Imperial Dyet to Ratisbon, and thereby restoring it to its old Place and Form; which, they say, will obviate at once the Objections contained in the Circular Letter, and give such an Authority to the Dyet, as may facilitate the Design of confirming the Peace, when made, by its Sanction; since, in its present divided State, there is no Hopes of its being brought about under its Mediation; which the Queen of Hungary has, in a manner, refused, and that for unanswerable Reasons.

Ratisbon, October 17. Things are extremely quiet in Hungary, and the Queen of Hungary has confirmed the Privileges of the City of Munich, during the time she will remain in Possession of Bavaria; and has shewed a Disposition of doing the like in regard to other Cities. The Magazines at Stadthamhoff are repaired, and they are filling them with the utmost Diligence. It is reported, that the Cavalry of Prince Charles's Army will be quarter'd in the Electorate, and, perhaps, a Part of the Regular Infantry. As to the Croats and Pandours, they have been prevailed upon to serve all the Winter; upon what Terms, is not yet known. General Browne is to march at the Head of 9000 Men through Italy into Italy; and the Austrians reckon, that they will be able to finish the War on that Side this Year, especially if the King of Sardinia is so fortunate as to beat the French and Spaniards.

Brussels, October 21. On the 16th the Marquis de los

Rios returned hither from Mannheim, where he went to attend his Son, who died of a high Fever the Day after his Arrival. That young Nobleman is excessively regretted; he was Lieutenant-Colonel of his Father's Regiment, and distinguish'd himself exceedingly in the Battle of Dettingen. The Cardinal de Alface-Bofu, his Uncle, who is Archbishop of Malines, celebrated, in Person, a Service for the Repose of the young Marquis's Soul, in his Cathedral. On the 17th a grand Council of State was held at the Palace of Orange, wherein, it is said, some Resolutions were taken of the last Importance; but upon what Subject, remains an impenetrable Secret. We have it from good Hands, that at the late Congress, as it is call'd, at Aix la Chapelle, an Attempt was made by the French Minister to engage the Hessian Troops, now in the Pay of Great Britain, to enter into his Master's Service; and it is said, that Offers of a like Nature have been made at several German Courts.

Hague, October 26. We are inform'd, that the Prince and Princess of Orange will go from Siegen to Coblenz, and from thence proceed in a Yacht down the Rhine, to their Palace at Loo.

## Dr. JOHN HOOPER's FEMALE PILLS,

Publish'd by Virtue of the KING's Royal Letters Patent; An Abstract of which is as follows:

GEORGE R.

GEORGE the Second, by the Grace of

God, of Great Britain, France and Ireland, King, Defender of the Faith, &c. To all to whom these Presents shall come, Greeting. WHEREAS Our Trusty and Well-beloved Dr. John Hooper, Man Midwife and Apothecary, in Reading, Berks, has represented unto Us, That at a considerable Expence, and much Study, for many Years, he has at last found out and invented a Medicine, now commonly call'd by the Name of the FEMALE PILLS, which he has brought to so great Perfection in opening Obstructions of the Vessels, that it has scarce ever been known to fail in the Cure of Disorders peculiarly incident to the Female Sex, commonly call'd the Green Sickness, and in restoring the Constitution of marry'd Women, after Lying-in, as Multitudes of our Subjects in general, who have labour'd under such Afflictions, have most happily experienc'd, &c. And We being willing to give Encouragement to all Arts and Inventions which may be for the Publick Good,

Know ye, therefore, That We of our especial Grace, certain Knowledge, and mere Motion, have given and granted, and by these Presents, for Us, Our Heirs and Successors, do give and grant unto the said John Hooper, his Assigns, &c. and such Persons only as they shall agree with, Our especial Licence, full Power, sole Privilege and Authority to vend the same.

And to the End that he the said John Hooper, and his Assigns, may have and enjoy the full Benefit, Use and Exercise of the said Invention, We do by these Presents, for Us, Our Heirs and Successors, require and strictly command all and every Person and Persons, Bodies Politic and Corporate, and all other our Subjects whatsoever, of what State, Quality, Degree, Nature, or Condition soever they be, that neither they, nor any of them, either directly or indirectly, do make, use, or put in Practice the said Invention, or any Part of the same, nor in any ways counterfeit, imitate, or resemble the same; nor shall make or cause to be made any Addition thereto, or Subtraction from the same, whereby to pretend himself or themselves, the Inventor or Inventors, Devisor or Devisors thereof, as they will answer their Contempt of this Our Royal Command, and further to be answerable to the said John Hooper, or his Assigns, according to Law, for his or their Damages thereby occasioned. And moreover, We do by these Presents, Will and Command all Justices of the Peace, Mayors, Sheriffs and Bailiffs, Constables, Headboroughs, and all other Officers and Ministers whatsoever, that they, or any of them, do not, in any wise, molest, trouble, or hinder the said John Hooper, or his Assigns, in or about the Use or Exercise of the aforesaid Invention, or any Thing relating thereto.

In Witness whereof We have caus'd these our Letters to be made Patent.

Given at Westminster, the 21st Day of July, in the 17th Year of our Reign.

Witness,

JOHN, Archbishop of Canterbury, &c.

To the PUBLICK.

These PILLS, by long Experience in private Practice, have been found the most useful Remedy against those general Complaints the Female Sex are subject to; they cleanse, purify, and cause a free Circulation of the Blood, when in a Manner stagnated; open those Obstructions which Virgins are so liable to, and bring Nature into its proper Channel, whereby Health is recover'd, and the Patient, that look'd like Death, restor'd to a lively Complexion. They are the best Medicine ever discover'd for young Women, when afflicted with what is vulgarly call'd the Green Sickness, which two or three Boxes will certainly cure; and are also excellent for the Palpitation of the Heart, Giddiness, Loathing of Food, bad Digestion, Pains of the Stomach, a Beating of the Arteries of the Neck, short Breath upon every little Motion, Sinking of the Spirits, a dejected Countenance, and Dislike to Exercise and Conversation; and likewise for the Scurvy. For all which Distempers they are a never-failing Cure, and are to be given from seven Years old to seventy. They are likewise equally proper for married Women, unless when with Child, and ought always to be taken one Month after Delivery; for they cleanse the Body, and purge off those gross Humours, which, when retain'd, generate numerous Diseases, and render Women unhealthy all their Lives; and therefore should be taken by all Women at the Age of Forty five or Fifty, to prevent those Disorders that usually attend them at that Time. These PILLS have likewise been found a Sovereign Remedy either for Men or Women, in all Hypochondriac, Hysteric, or Vapourish Disorders; for they exceedingly strengthen the Nerves, throw off all gross Humours tending to Melancholy, invigorate the sinking Spirit, and cause an universal Chearfulness in the Body. They are Cordial to the Stomach, and agreeable to the Smell and Taste.

By Virtue of the Patent above-mention'd, I have appointed Messieurs William and Chur Dacey, and Comp. and John Newbery, my ONLY VENDERS of these Female PILLS; to whom all Persons are desired to apply for them, at their Warehouses, the Bible and Crown without Temple-Bar, and at Dr. Bateman's Warehouse in Bow-Church-Yard, London; or at their Printing-Offices in Northampton and Reading; at all which Places, Merchants, Captains of Ships, and Country Dealers, will have good Allowance to sell again; and particular Bills in any Language will be printed for such as take Quantities to Foreign Parts.

Sold also Retail at my House in Reading,

JOHN HOOPER.

N.B. Each Box contains 40 Pills, which is about 10 Doses, and are sealed up in their Directions, with a Seal having these Words, JN<sup>o</sup> HOOPER'S FEMALE PILLS, and round it, BY THE KING'S PATENT, the same as in the Margin. Price One Shilling the Box.

## NEVER were NERVOUS DISEASES,

PALSIES, and PARALYTICK DISORDERS so frequent as of late they have been, nor have the usual Remedies been found adequate to those pertinacious Distempers: This occasioned a Physician, who employ'd his Thoughts much concerning them, to adapt a Medicine, a Sovereign Elixir, peculiar to, and effectual for, the Palsy, and all other nervous Complaints now reigning, which after he had experienced on vast Numbers of Persons of both Sexes, and always with surprizing Success, even so as infallibly to cure by it the Palsy, and all Paralytick Effects and Nervous Disorders, he permitted it to be made publick for a general Good, that so those labouring under these miserable Ailments, might know where to meet with a safe and most certain Cure, which it accomplishes in so short a Time, and with such Ease and Pleasure (a few Drops of it being a Dose, highly agreeable to the Palate, and comforting to the Stomach and Bowels) as is almost incredible to relate.

But the taking one Bottle of it only, demonstrates its prodigious Efficacy to every one, and the Patients soon find all Numbness, Deadness, and Shaking, or Resolution of the Nerves, as well as all convulsive, cramp-like, or painful Contractions of them, vanish and return no more; and though these Diseases have been of many Years standing, and whether occasioned by long Illness, fast Living, hard Drinking, or any other Cause, it performs all that can be said for in Nervous Cases, creates an Appetite, expels Wind, rectifies the Digestion, occasions laudable Chyle, attenuates the Blood and Juices, causes a free and regular Circulation of the Blood and Juices, revives and increases the Spirits, warms, comforts, strengthens, and replenishes the Brain and whole Nervous System, hence the Sinews, Tendons, Ligaments, and all the enscathed Parts are invigorated, the Limbs restored to their pristine Steadiness and Strength, the Palsy and all Paralytick Disorders and Nervous Decays suddenly cured by it, to the Admiration of the Patients themselves, and all about them.

This sovereign and incomparable Elixir is permitted to be sold only at Mrs. Holt's, at the Cross-Keys and Bear below the Royal Exchange in Cornhill, London, at 2 s. 6 d. a Bottle, with printed Directions at large.
